Professional Interests

Teaching and research within K-12 and higher education. Specific areas of interest include the use of technology (e.g. R and LaTeX) for reproducible research; math anxiety, math affect, and general perceptions of mathematics; issues of social justice and equity in education; and methodological and statistical topics, particularly propensity score analysis and modern graphics.

Education

- 2006-present **Doctoral Candidate**, *University at Albany*, Albany, NY.
Expected 2013 Educational Psychology & Methodology
- 2009 **M.S.**, *University at Albany*, Albany, NY.
Educational Psychology & Methodology
- 2004-2005 **Coursework Completed**, *The College of Saint Rose Graduate School*, Albany, NY.
Adolescent Education in Mathematics
- 1999 **B.A.**, *The College of Saint Rose*, Albany, NY.
Mathematics major; Computer Information Systems minor

Dissertation

- Title *A National Study Comparing Charter and Traditional Public Schools using Propensity Score Analysis*
- Committee Robert M. Pruzek (chair), Bruce Dudek, Kathryn S. Schiller
- Abstract The use of propensity score analysis (Rosenbaum & Rubin, 1983) has gained increasing popularity for the estimation of causal effects within observational studies. However, its use in situations where data is multilevel, or clustered, is limited (Arpino & Mealli, 2008; Thommes & West, 2011). This study will introduce the multilevelPSA (Bryer, 2011) package for R that provides functions for estimating propensity scores for large datasets using logistic regression and conditional inference trees. Furthermore, a set of graphical functions that extends the framework of visualizing propensity score analysis introduced by Helmreich and Pruzek (2009) to multilevel analysis will be discussed. An application for estimating the effects of charter schools as compared to traditional public schools on reading and mathematics in grades 4 and 8 is provided.

Professional Experiences

- 2008-present **Senior Research Analyst**, *Excelsior College, Office of Institutional Research*, Albany, NY.
Conduct research and data analysis related to the college's mission. This includes developing, administering, and analyzing surveys; analyzing data from the college's student information system; and consulting with individual schools to develop specific measures. I also provide substantial support and training for other Research Analysts within the Office.
- 2012-present **Senior Research Analyst**, *Excelsior College, Office of Research and Grants*, Albany, NY.
Assist the College in seeking external grants. Recent activities include submitting a grant proposal to the Institute of Education Sciences as Principal Investigator titled *Utilizing Diagnostic Assessments to Increase College Student Engagement and Completion* (requested \$1.1 million). Additionally, I am currently providing methodological and statistical support for a grant developing an Online Writing Lab.
- 2008-2010 **Research Assistant**, *Head Start University Partnership for Classroom Quality*, Albany, NY.
Assist with data collection, entry, maintenance, and analysis to evaluate the effectiveness of behavioral (Positive Behavior Support [PBS]) and literacy interventions using the Response-to-Intervention (RTI) model.
Principal investigators: Kevin P. Quinn & Frank R. Vellutino
- 2008-2011 **Webmaster**, *University at Albany, School of Education*, Albany, NY.
Develop and maintain all School of Education websites.
- 2006-2007 **Graduate Assistant**, *Teaching Mathematics for Understanding*, University at Albany, Albany, NY.
Developed and led planning sessions with K-8 mathematics teachers in urban school districts on social justice topics in the mathematics curriculum. Assisted in other areas of the project including data collection, conference planning, and development of online professional development courses.
Principal Investigators: Abbe Herzig & Vicky Kouba
- 2006-2008 **Senior Applications Developer**, *Excelsior College*, Albany, NY.
Developed Java applications for distance learning and student management systems.
- 2004-2006 **Senior Software Engineer**, *State University of New York*, Albany, NY.
Developed web based applications in Java and related technologies as part of a state wide financial and human resource systems.
- 1999-2004 **Software Engineer**, *MapInfo*, Troy, NY.
Contributed key features as part of a geographic information system (GIS) server application (MapX-treme Java).

Teaching Experiences

- Spring 2013 EPSY 887 Institute in Education: Computational Statistics (University at Albany)
This seminar will provide an introduction to statistical programming for data analysis with an emphasis on the analysis of large datasets. With the increased availability of large national and international datasets (e.g. PISA, TIMMS, NAEP, ECLS) there is a great opportunity and potential for researchers to address important questions. However, the analysis of large datasets requires special analytical procedures not found in commercial statistics software. Utilizing the open source statistical software R, students will be introduced to the tools and procedures for analyzing large datasets with an emphasis on conducting transparent and reproducible research.
Course website: <https://github.com/jbryer/CompStats>
- Fall 2012 Introduction to R and LaTeX for Institutional Research (Workshop given at the Northeast
Fall 2011 Association for Institutional Research)
This workshop will provide an overview as well as hands-on exercises for using R and LaTeX to perform data analysis and report generation. Participants will learn to perform basic statistical analyses in R and to generate reports with LaTeX in spreadsheet, presentation, and document formats.
- Fall 2010 Introduction to R and LaTeX (Excelsior College In-service workshop)
- Spring 2009 EPSY 420 Child & Adolescent Development (University at Albany)
Fall 2008 This course covers theory and research in social, emotional, physical, and intellectual development and its application to instruction with an emphasis on late childhood through middle adolescence.
- 2007-2011 Assisted in teaching the online section of Statistics I (EPSY 530) including the installation
Fall Semesters and management of the Moodle Content Management System (moodle.bryer.org)

Service Positions

City School District of Albany

- 2011-2012 Committee Member, Grade Configuration Committee; Chair of the Accountability Subcommittee

American Educational Research Association

- 2009-2011 Treasurer, Studying and Self-Regulated Learning Special Interest Group
2009-2010 Committee Member, Division D Membership Committee

Excelsior College

- 2010-present Committee Member, Student Learning Support Services Committee
2010-present Committee Member, Data Definitions & Quality
2010-present Committee Member, Information Technology Operations & Security Committee
2011-2012 Committee Member, Search Committee for Assistant Provost
2009-2010 Committee Member, Early Alert System for Identifying Non-Persistent Students
2009 Committee Chair, Task Force on a Library of Model Courses
2009-2010 Committee Member, System for Storing Information at Excelsior College

2007-2008 Treasurer, Graduate Student Organization

Professional Memberships

AERA American Educational Research Association
AIR Association for Institutional Research
ASA American Statistical Association
MAA Mathematical Association of America
NCTM National Council of Teachers of Mathematics
NEAIR North East Association for Institutional Research
STP Society for the Teaching of Psychology

Awards & Grants

2011, 2012 The Society of Multivariate Experimental Psychology (SMEP), Workshop Travel Award (three separate awards of \$1,000 each)
2011 National Center for Educational Statistics Workshop Travel Award (~\$800)
2009 Association for Institutional Research (AIR) & National Center for Educational Statistics (NCES), Travel Grant (\$330)
2009 National Science Foundation, Travel/Research Grant (\$1,000)
2009 University at Albany Graduate Student Organization, Travel/Research Grant (\$320.00)
2001 Award for Outstanding Performance, MapInfo.
1999 Sister Noel Marie Cronin Award for excellence in Mathematics, College of Saint Rose.
1999 Outstanding Senior Award for Mathematics/Computer Information Systems, College of Saint Rose.
1998, 1999 Service and Appreciation Award, College of Saint Rose.

Unpublished Papers in Preparation

Bryer, J. M. and Pruzek, R. M. (In preparationb). Trimatch: An R package for propensity score analysis of non-binary treatments. *Journal of Statistical Software*.
Bryer, J. M. and Pruzek, R. M. (In preparationa). multilevelPSA: An R package for estimating and visualizing multilevel propensity score models. *Journal of Statistical Software*.
Bryer, J. M. (In preparation). *The NAEP Primer (NCES 2011-463)*, chapter Using R to analyze NAEP. U.S. Department of Education, National Center for Education Statistics, Washington, D.C.

Published or Submitted

Bryer, J. M. (In revision). makeR: An R package for managing document building and versioning. *The R Journal*.

- Nagelsmith, L., Bryer, J. M., and Yan, Z. (2012). Measuring motivation & volition of nursing students in non-traditional learning environments. *Journal of Nursing Measurement*, 20(2).
- Bryer, J. M. and Pruzek, R. M. (2011). An international comparison of private and public schools using multilevel propensity score methods and graphics (abstract). *Multivariate Behavior Research*, 46(6):1010–1011.
